

Together Mode with New Background Scenes

Microsoft is rolling out support for more background scenes. Instead of Together mode, the newly updated

Theater mode offers a fresh look and feel mimicking:

1. Cinema
2. Curved conference theater
3. Curved outside amphitheater
4. Round boardroom table
5. Straight boardroom table

The first four scenes are suitable for large meetings up to the 49-participant limit Teams can display. The boardrooms scenes can be used with smaller gatherings. Check it out on your next Team's meeting!
